## *Relationship and Intimacy Expert: Your Guide to Conscious Partnership*

Alexandra Stockwell, MD is a Physician turned Relationship and Intimacy Expert, known as The Relationship Catalyst. For over two decades she has been guiding men and women to bring pleasure and purpose back into all aspects of life—from the daily grind of running a household, to successfully growing a business, to creating ecstatic experiences in the bedroom! After twelve years in medicine, she studied the science and the art of emotional and sensual connection.

As a wife of 23 years and a mother of four, she believes the key to passion, fulfillment, intimacy and success in relationship isn't compromise--it's being unwilling to compromise--because when people feel free to be themselves, and know how to love and be loved for exactly who they are, relationships become juicy, nourishing, and deeply satisfying. Alexandra helps build connected and happy families through facilitating healing and transformation for couples.
